# Business Automation Checklist

Use this with your team to find where your business can save time. For each task, note how often you do it and how long it takes, decide whether it could be automated or AI-assisted, and circle a priority.

**Automate**
Rules move information and trigger actions between apps, the same way every time. Tick neither if it should stay manual.

**AI-assist**
An AI tool drafts, summarizes or sorts. A person checks the result before it is used.

**Priority**
H = high, M = medium, L = low. Start with a high-priority, low-risk task.

| TASK | HOW OFTEN | TIME IT TAKES | AUTOMATE OR AI-ASSIST? | PRIORITY |
|---|---|---|---|---|
| **Customer and sales operations** | | | | |
| 1 Collecting customer inquiries | | | ☐ Automate ☐ AI-assist | H M L |
| 2 Organizing leads and contact information | | | ☐ Automate ☐ AI-assist | H M L |
| 3 Sending inquiry acknowledgments | | | ☐ Automate ☐ AI-assist | H M L |
| 4 Scheduling appointments | | | ☐ Automate ☐ AI-assist | H M L |
| 5 Sending appointment reminders | | | ☐ Automate ☐ AI-assist | H M L |
| **Marketing and communication** | | | | |
| 6 Drafting social media captions | | | ☐ Automate ☐ AI-assist | H M L |
| 7 Planning content calendars | | | ☐ Automate ☐ AI-assist | H M L |
| 8 Repurposing existing content | | | ☐ Automate ☐ AI-assist | H M L |
| 9 Sending newsletters and routine updates | | | ☐ Automate ☐ AI-assist | H M L |
| 10 Organizing marketing performance reports | | | ☐ Automate ☐ AI-assist | H M L |

## Administrative and operational work

| | | | | | |
|---|---|---|---|---|---|
| 11 | Organizing incoming documents | | | ☐ Automate ☐ AI-assist | H M L |
| 12 | Summarizing meeting notes | | | ☐ Automate ☐ AI-assist | H M L |
| 13 | Preparing recurring reports | | | ☐ Automate ☐ AI-assist | H M L |
| 14 | Tracking task progress and deadlines | | | ☐ Automate ☐ AI-assist | H M L |
| 15 | Collecting and summarizing customer feedback | | | ☐ Automate ☐ AI-assist | H M L |

## Is it a good first candidate?

The best tasks to start with tick most of these boxes.

**Repetitive**
Done the same way every day or week.

**Time-consuming**
The hours add up over a month.

**Rule-based**
Easy to explain to a new hire.

**Low-risk**
A mistake is easy to spot and fix.

**Easy to measure**
You can tell if it saved time.

## Your top three

1. Task _____ Tool to try _____
2. Task _____ Tool to try _____
3. Task _____ Tool to try _____

## A simple starting plan

**1**
Pick one repetitive task that takes too much time.

**2**
Find an accessible tool to simplify or automate it. Check what you already pay for first.

**3**
Test it, review every result, and improve it before you automate the next task.

Before you upload documents or customer details to an AI tool, check its data policy and your organization's permissions. Keep a person on anything sensitive, complex or high-value.
